SUMMARY

IT graduate with hands-on experience in software testing, test automation, and full-stack development. Experienced in building and testing web applications using JavaScript, TypeScript, Playwright, React, Node.js, Express, and MongoDB, with a strong foundation in SDLC, STLC, API testing, and modern software development practices. Adaptable and detail-oriented, with the ability to quickly learn new technologies and contribute effectively across software development and quality assurance.

WORK EXPERIENCE

Software QA Analyst Intern

Kooya! Inc. | Sep 2025–Dec 2025

- Developed automated test scripts using **Playwright (TypeScript)** to improve testing efficiency.
- Performed **manual and automated testing**, including functional, regression, and UI testing.
- Created and executed **test cases** and tracked defects using **Jira**.
- Collaborated with developers to troubleshoot issues and **verify bug fixes**.
- Generated **Allure test reports** to analyze test execution results.
- Validated **software requirements** and ensured application quality before deployment

Mobile App Developer Intern

APEC Homes | Feb 2025 – Apr 2025

- Developed a mobile application using **Vue.js, Ionic Vue, TypeScript, Tailwind CSS**, and **Capacitor**.
 - Designed UI prototypes and wireframes using **Figma** and **Canva**.
 - Built responsive user interfaces and integrated **REST APIs** using **Axios**.
 - Configured Android builds and application branding with **Android Studio**.
 - Collaborated in development, debugging, and **QA testing** throughout the **SDLC**.
-

SKILLS

Testing & Automation: Manual Testing, Test Automation, Playwright, Allure Report, Jira, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Exploratory Testing, API Testing, Test Case Design, Bug Reporting

Languages & Scripting: JavaScript, TypeScript, SQL

Backend & Web Technologies: Node.js, Express.js, HTML5, CSS3, React, Vue.js, REST APIs, Axios, Tailwind CSS, Ionic Vue, Capacitor

Tools & Databases: Git, GitHub, VS Code, Postman, MongoDB, MySQL

EDUCATION

Bachelor of Information Technology

Rizal Technological University | 2022–2026

- Academic Achiever
- Pasig Scholarship

TRAINING

Web Development

Mindtech Training and Development Institute Inc. | 2021

PROJECTS

Univentry: IoT-Based Visitor Management & Monitoring System — Full-Stack Capstone Project

Tech Stack: React, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, face-api.js, Tesseract.js, QR Code, Brevo, iProgSMS, node-rtsp-stream, JSMpeg

- Developed a full-stack visitor management system for university campuses that streamlines guest check-ins and tracks gate entry through QR code scanning.
- Implemented role-based dashboards, real-time camera monitoring, and automated email/SMS notifications.

APEC Homes: Attendance Checker — Frontend Internship Project

Tech Stack: Vue 3, TypeScript, Tailwind CSS, Capacitor, Google ML Kit, Firebase

- Developed a mobile attendance application that allows managers to scan employee QR codes using a smartphone camera.
- Enabled real-time retrieval of employee profiles and attendance check-in logging.
